

Servicio API REST

The diagram illustrates a one-to-one relationship between two tables: 'coordenada' and 'detalle'.

- coordenada table:**
 - PK id (INTEGER)
 - lat (DOUBLE)
 - longitud (DOUBLE)
- detalle table:**
 - PK id (INTEGER)
 - PK coordenada_id (DOUBLE)
 - detalle (DOUBLE)

The relationship is indicated by a double line connecting the 'id' primary key of 'coordenada' to the 'id' primary key of 'detalle', signifying a one-to-one relationship.
